

WESTERN AUSTRALIA

**STATE
WELFARE
EMERGENCY MANAGEMENT
SUPPORT PLAN
(WESTPLAN – WELFARE)**

ISSUED BY

Department for Community Development
Government of Western Australia

ON BEHALF OF THE
STATE EMERGENCY MANAGEMENT COMMITTEE

FOREWARD

In accordance with the State's emergency management arrangements determined by the Government, this support plan has been produced by the Department for Community Development on behalf of the State Emergency Management Committee.

One of the major requirements in an emergency is the provision of welfare services to those affected by the event. The services likely to be needed range from the provision of food and clothing, to meeting the emotional and psychological needs as a result of the trauma suffered by the community. These services are an integral part of Emergency Management and need to be integrated with other services, including response services provided by the Hazard Management Agencies. There needs to be a cooperative approach to planning for the delivery of these services following a major emergency with the overall aim of alleviating in the most humane way possible, the social disruption and effects brought about by such an event. Services will need to be provided for those who have been displaced, disadvantaged, or had their lives and livelihood disrupted. This plan sets out the parameters to do that.

Overall responsibility for the management of welfare services during emergencies rests with the Department for Community Development. Importantly, the Department recognises and supports a community centred approach. As such the Department will coordinate the resources detailed in this plan to support local emergency management arrangements. Accordingly where a Local Government appoints its own "Local Welfare Liaison Officer", the Local Welfare Coordinator referred to in this plan will act as a support to that Officer and activate the Local Welfare Support Plan or components thereof as requested by the Local Welfare Liaison Officer".

To assist the Department to deliver emergency welfare services, a number of organisations, both statutory and voluntary have accepted specific tasks and responsibilities that are detailed in this plan.

Non statutory organisations assisting in the delivery of welfare services do so on a voluntary basis. The Government holds their assistance and commitment towards the provision of these services in high regard. Without their participation, effective delivery of welfare services would be difficult to achieve.

AMENDMENT CERTIFICATE

Proposals for amendment or additions to the text of this plan should be forwarded to the Emergency Services Coordinator, Department for Community Development, Fulham House, 222 Fulham St, Cloverdale WA 6105.

PART 1

INTRODUCTION

GENERAL

- 1.01 In emergency management terminology, Welfare is defined as providing immediate and ongoing supportive services, to alleviate as far as practicable the effects on persons affected by an emergency.
- 1.02 The provision of Welfare under this plan incorporates a range of services aimed at achieving the above.
- 1.03 The development of these emergency welfare services is based fundamentally on the utilisation of resources already existing within the community.
- 1.04 The State Welfare Emergency Support Plan supports a community centred approach to emergency management. At the Local level the plan aims to supplement the resources of the local community when required.

AIM

- 1.05 The aim of the State Welfare Emergency Management Support Plan is to detail the management arrangements at the State and Local levels for the provision of emergency welfare services during emergencies.

SCOPE

- 1.06 This plan details statewide policy and arrangements adopted by the Department for Community Development to coordinate welfare services in an emergency. It also details State level organisation and response arrangements in support of local welfare support plans. The arrangements provide for both government and non-government organisations to operate in a cooperative and coordinated manner in accordance with agreed roles and responsibilities.
- 1.07 It is important that the planning and provision of emergency welfare services at the local level are consistent with, as far as possible, with the policy and concepts detailed in this plan. Where Local Governments elect to nominate their own Welfare Coordinators or Welfare Liaison Officers the Local Welfare Coordinators referred to in this plan will have a support coordination role.

OBJECTIVES

- 1.08 The objectives of this Plan are to:
 - a. Prescribe the organisation, concepts, responsibilities, mechanisms and procedures for statutory and non statutory organisations involved in the delivery of emergency welfare services;
 - b. Establish a basis for the provision and coordination of emergency welfare services and resources during emergencies;
 - c. Establish practice and principles for the coordination of emergency assistance and relief measures; and
 - d. Provide the basis for welfare planning at the local level.

TITLE

1.09 This plan shall be titled the State Welfare Emergency Management Support Plan, abbreviated WESTPLAN - WELFARE.

RELATED DOCUMENTS

1.10 This plan is a "stand alone" document that may be activated to support hazard management plans. Other documents related to this plan are:

- a. State Registration and Inquiry Plan;
- b. State Recovery Emergency Management Plan; and
- c. State Reception of Evacuees from Overseas Plan.

AUTHORITY AND PLANNING RESPONSIBILITY

1.11 The authority for this plan is the State Emergency Management Committee (SEMC).

1.12 Responsibility for the development and maintenance of the plan is allocated to the Department for Community Development in consultation with the State Welfare Emergency Committee, under the chair of the Department for Community Development.

PART 2

OPERATIONAL CONCEPT

INTRODUCTION

- 2.01 During response and/or recovery operations the concept of welfare support is to provide relief services to persons affected by the emergency by coordinating the welfare resources of State/Commonwealth departments and agencies, together with the welfare resources of voluntary organisations and private industry, to meet the emergency welfare needs of the community.

OPERATIONAL CONCEPT

- 2.02 The emergency welfare operational concept is based on the following:
- a. The designation of a single specialist welfare organisation responsible, on a statewide basis, for the management of the emergency welfare functions during emergencies. This agency is Department for Community Development.
 - b. The management of emergency welfare services shall be based on the daily administrative structure of the Department for Community Development Welfare Emergency Management Support Plans, will be prepared for the State-and Local levels.
 - c. The grouping of emergency welfare services into six functional areas (see paragraph 2.03) each of which shall be addressed in the relevant welfare emergency management support plans.
 - d. The allocation of responsibility for each functional area to a “functional” manager (i.e. Emergency Catering Manager, Emergency Accommodation Manager, etc). Where this allocation has been made on an organisational basis such allocation shall, as far as possible, apply at all levels. Where this is not possible the Department for Community Development shall make alternate arrangements.
 - e. The provision of emergency welfare services shall be based on a two-tier response, i.e. local resources first, followed by state support.

WELFARE FUNCTIONAL AREAS

- 2.03 In an emergency, the physical and psychological needs of those affected can be many and varied. The nature and scale of the emergency will determine the type of services required to meet those needs and the manner in which they should be delivered. For example, only psychological services may be needed for one emergency while another may require a combination of accommodation and psychological services.

2.04 To assist in coordinating these services they have been grouped into the following six functional areas:

a. **Emergency Accommodation**

The provision of temporary shelter for persons rendered homeless, and where necessary, the allocation of more permanent accommodation.

Policy

- (1) The provision of temporary shelter may take the form of a centre established and maintained to provide emergency welfare services to disaster affected persons. Such a centre is known as a welfare centre. Welfare Centres include: Evacuation Centres, Relief/Recovery Centres (commonly referred to as 'One-Stop-Shop') and Accommodation Centres.
- (2) Centre locations should be identified in relevant Welfare Support Plans together with procedures for their activation and management. Their activation is determined by the respective Welfare Coordinator in consultation with the Emergency Coordinator and the Hazard Management Agency. They are established and managed by designated Centre Managers appointed by the Welfare Co-ordinator.
- (3) Accommodation facilities such as Department for Community Development residential facilities and Department of Sport and Recreation camp facilities may be utilised when available and appropriate.
- (4) The use of temporary accommodation such as showgrounds or billeting should only be used when no other form of accommodation is available.
- (5) A resource list of facilities available for use as *Centres* should be maintained by the relevant Welfare Coordinator and included in the state and local welfare support plan.

b. **Emergency Catering**

The establishment of an emergency catering service for those rendered homeless, evacuees, casualties and welfare workers.

Policy

- (1) Depending on the numbers involved and the length of time for which catering is required, this may be met through either of the following:
 - (a) Voluntary groups such as the Salvation Army and Country Women's Association (where these exist);
 - (b) Fast food outlets;
 - (c) Meals-on-Wheels; or
 - (d) Hospital/Hotel/Motel/Public Catering services.
- (2) Payment for food provided at designated centres will be met by the Department for Community Development. Payment for food provided outside of these centres is subject to negotiation between the Department for Community Development, Emergency Coordinators and the relevant Hazard Management Agency.
- (3) Responsibility for provision of meals for non-welfare emergency workers is the responsibility of the Hazard Management Agency.
- (4) A resource list of catering agencies should be maintained by the relevant Welfare Coordinator and included in the state and local welfare support plan.

c. **Emergency Clothing and Personal Requisites**

The provision of essential clothing and personal requisites, such as toiletry packs, to affected persons.

Policy

- (1) This function includes the provision of basic necessities such as blankets, towels, mattresses, pillows, bedding, disposable nappies, and sanitary needs etc.
- (2) Where possible new clothing or financial assistance for the purchase of new clothing should be provided to eligible persons as soon as practicable.
- (3) The use of 'recycled' clothing is a last resort.
- (4) Welfare Coordinators should maintain and include in the state and local welfare support plan lists of retail outlets agreeing to participate in these arrangements and ensure that acceptable procedural matters have been established.

d. **Personal Services**

The provision of services including information, advice and counselling services, to ensure that affected persons receive the necessary personal support to cope with the effects of loss, stress, confusion, trauma and family disruption.

Policy

- (1) Department for Community Development officers may need to work with a number of other specialist agencies in providing this service. This may include specialised counselling and psychiatric services, childcare facilities and self help groups.
- (2) Information and advice services may cover such matters as relief measures, availability of grants and other forms of financial assistance, insurance, legal advice, health and safety, rebuilding, child care and financial counselling.
- (3) Welfare Coordinators should maintain and include in the state and local welfare support plan a list of agencies and establish procedural arrangements for their participation following major emergencies.

e. **Registration and Inquiry**

The implementation of a registration and inquiry system that provides for individuals to be traced, families reunited and inquiries answered.

Policy

- (1) Policy governing the delivery of this function is detailed in the State Registration and Inquiry Emergency Management Plan,
- (2) Welfare Coordinators need to be familiar with the arrangements in the State Registration and Inquiry Emergency Management Plan and ensure that arrangements are put in place to meet their responsibilities.

f. **Financial Assistance**

The provision of financial assistance to those who are eligible and in need.

Policy

- (1) There are a number of financial assistance programs that may be put in place following a major emergency. The policy governing each program is determined by Government.
- (2) Financial assistance may include:
 - (a) The Natural Disaster Relief Arrangements'(NDRA)- Personal Hardship and Distress Relief Payments administered by Department for Community Development:

STATE WELFARE EMERGENCY MANAGEMENT SUPPORT PLAN

ROLES AND FUNCTIONS OF PARTICIPATING ORGANISATIONS AND SUPPORT AGENCIES
