Women's Health Today

Tell us what you think, so together we can make a difference.

Come along and join us to have your say into the development of the new National Women's Health Policy.

We are keen to hear what you think about women's health, barriers to accessing services and how we can improve women's health and wellbeing.

At this exciting event common interests will be explored and YOU can have your say in shaping the direction of future health services for women.

A scrumptious lunch will be provided.

Dialogue Café in the Banksia Room at The City of Wanneroo

23 Dundeebar Road, Wanneroo
